

Three-point plan for our Town Hall

WE refer to Councillor Winksill's letter (Viewpoints, October 23) regarding the public meeting to reclaim Hornsey Town Hall. It may be of service to the wider community if we could repeat this historic mandate to which the 50-strong public meeting unanimously agreed.

- TURN Town Hall into community centre, open for cinema, theatre, concerts, etc
- OPEN car park for use of residents and visitors as a pay and display facility
- RECLAIM area in front of Town Hall for a multi-use Covent Garden style piazza

It was with the agreement of these points that the public meeting also agreed that "this meeting calls upon Haringey Council to defer on Hornsey Town Hall to give time to bring forward new proposals as part of a proper consultative process".

We are a committed group of residents. We believe that the time has come for people to join together and make our community a place where everyone has a sense of belonging and a say in its future.

Crouch End has a strong community spirit. What our public meeting demonstrated was that there is significant political and community will to bring the Town Hall back to life – for the good of our community and particularly for our youth. – *Nir Wegryn, on behalf of Crouch End for People.*
